The Sharonville Convention Center offers a best-in-class WiFi experience for all planners, exhibitors and attendees. Backed by best-in-breed technology and market leader, Aruba Networks, the Convention Center offers a seamless, high-speed connection no matter where you are located in the building. With fiber-optic technology as the Convention Center's foundational layer, we are able to offer up to 1 Gigabit of Internet bandwidth over the WiFi network. As the need for fast, reliable connectivity continues to increase, we have you covered! Whether you are streaming video, transferring large files, utilizing conference apps or web conference tools, the Sharonville Convention Center can handle all your bandwidth needs.
